

**Fusion**

Without doubt the most complete mineral purifier.

“ DID YOU KNOW? ”

Zodiac has drawn its inspiration from the "natural" solutions that Nature offers for treating water...

Copper and silver are at the heart of Nature 2 technology. The properties of these mineral elements **eliminate bacteria and viruses "naturally"**. They also have an anti-algae effect. In order to purify the water the self-regulated release of these minerals is ensured by porous ceramic pellets which capture the micro-particles that slipped through the pool filter.

► **RESULT: naturally treated soft water that is always clear, respectful of health and the environment.**

Nature 2 technology based on copper and silver ceramic pellets

Why opt for a Nature 2® Fusion mineral purifier?

It proposes a **complete treatment** with two compartments. The first features the Nature 2® Fusion mineral cartridge which clarifies the water, prevents algae, stabilizes the pH level and combats germs and bacteria. The second contains a slow chlorine dispenser that perfects the disinfection action. Combined with the Nature 2® Fusion cartridge, it significantly reduces the quantity of chlorine typically required with a skimmer or a floating dispenser.

► **Focused on pool users' needs, Zodiac has developed Nature 2® Fusion, the natural solution for your wellbeing: "Gentle with the skin and the eyes, environmentally friendly, easy to use".**

Environment friendly and simple

Nature 2 technology: a concentrate of carefully dosed mineral elements

Easy installation, no power supply and no programming required

Disinfectant + mineral purification action

Nature 2® Fusion mineral purification is also available for...

- spas

- pools treated with automatic solutions (example: salt chlorination...)

- Treatment for 20 to 170 m³ of water (4 cartridge models for Nature 2® Fusion)
- Uses only stabilized slow chlorine type "TRI-CHLORO" (tablets)
- For above-ground pools (adaptor kit for

- flexible hoses Ø 32 or 38 mm included) and in-ground pools (connectors for rigid hoses Ø 50/63 mm standard)
- Installation during construction or on existing pools

TESTED & APPROVED!

91%

of Nature 2® Fusion users are fully satisfied. **Simplicity, reduced and controlled chlorine production, and bathing comfort** are the main assets of the Nature 2® Fusion purifier.
