with  **Bluetooth®**
SMART

**2015
UK POOL AND SPA
PRODUCT OF THE
YEAR**

INNOVATIVE

First handheld photometer to 2-way communicate with a smartphone

CUSTOMIZE

Only download the tests you want

LOCATION

First handheld photometer system that's GPS enabled

SMART

Uses the latest Bluetooth® Smart low energy green technology

INTEGRITY

Reduce human error by incorporating results with time, date and location stamp

LOW COST

Meter integrates smartphone technology by harnessing its computing power

CONVENIENT

Easy purchasing of supplies

ACCURATE

In app updates for best accuracy

SOCIAL

Save, manage and share your results digitally

WATERPROOF

IP-67 rated and it floats

PATENTED

U.S. Patents #7,333,194 and #7,491,546;

E.U. Patent #1,725,864 DE FR UK

South African Patent #2007/0628

U.S and International Patents pending

HARNESS THE POWER OF THE SMARTPHONE AND UPGRADE THE WAY YOU TEST WATER!

The eXact iDip[®] Smart Photometer is the first photometer in the pool testing market to provide 2-way wireless connection (Bluetooth[®] Smart) with the iPhone[®], iPad[®], iPod Touch[®] and Android. It reduces on-site test time, increases accuracy, and enhances customer experience through real-time mobile sharing of results via email or exported as a CSV file! The built-in GPS feature allows for easy retrieval of water locations. Customize the app and download only the tests you need. Pool technicians appreciate eliminating repetitive data entry tasks while saving time and money.

waterproof IP67
