

Technical features:

Frame :

Aluminium frame made up of modules running on rollers with stainless steel needle bearings. Bearing capacity up to 150 kg/m².

Tracks :

The aluminium tracks must be fixed onto a solid, non-mobile surface.

Finishes :

Siberian Larch. WALU DECK can also be supplied without decking.

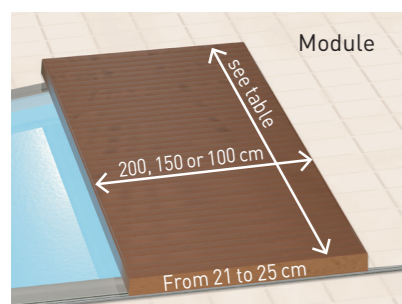

Table of sizes :

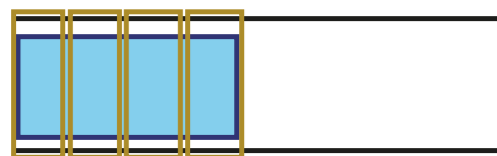

You can choose between 3

Modules width: 2,00 m, 1,50 m or 1,00 m.

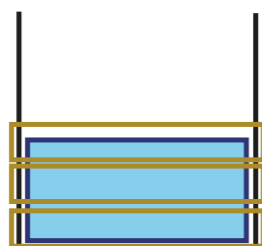

The Modules height (with decking) **is adjustable** between 21 and 25 cm.

Possible layouts (depending on the pool size) :

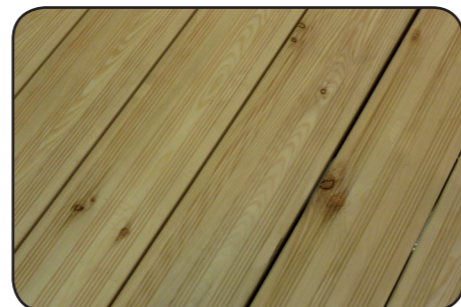

① Tracks on the pool length

② Tracks on the pool width

Important : The tracks can only be installed on the width side of the pool for pool length ≤ 5,00 m (or ≤ 5,50 m for pools without coping guard) because of the maximum modules length of 6,00 m.

• Finishes : Siberian Larch

• Aluminium track

*according to our general warranty terms delivered with the cover.

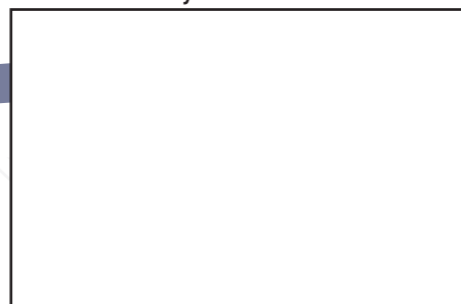

Swimming pool safety cover designed to prevent access to the pool for children under 5 years of age.

Keep this document for future reference.

Warning:

This cover is no substitute for common sense and individual responsibility. It is not intended to dispense with the need for supervision of young children by their parents and/or responsible adults, which remains essential for their safety.

WALTER

+ POINTS

100% Safe and Tough

Closing completely and entirely rigid, WALU DECK designed to ensure maximum safety for children and pets.

Economic and Clean

WALU DECK prevents evaporation, avoids heat loss and considerably slows down the development of algae. This also extends the period of use of the pool and reduces the cost of its upkeep.

Simple and Easy handling

WALU DECK does not need any electrical connection, and is therefore easy and extremely quick to install. Suitable for all types of in-ground pools (any shape).

Aesthetic and Versatile

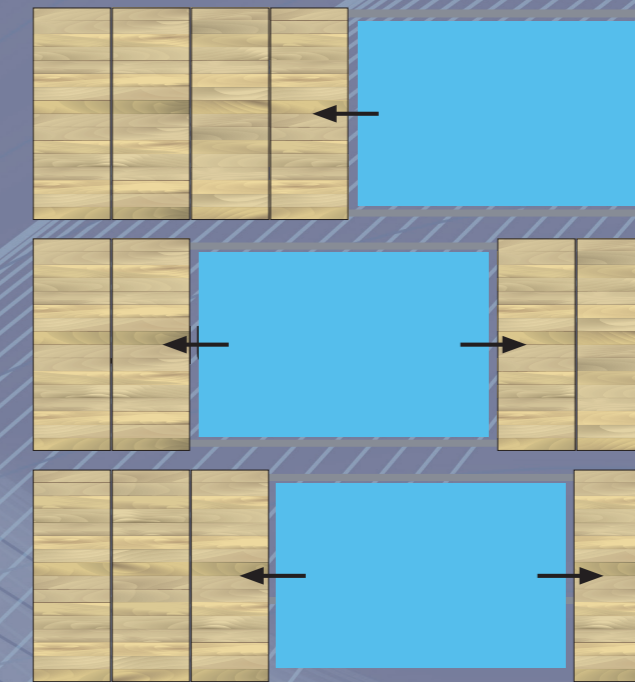

WALU DECK is also a clever way of optimising the space taken by the swimming pool and its environment : it replaces slatted or timberdecked poolside areas.

Both a deck and a safety cover, suitable for use all year round, WALU DECK offers the best of protection whilst optimising the space available. The pool can be used as a play area, a place to relax or an outdoor dining area.

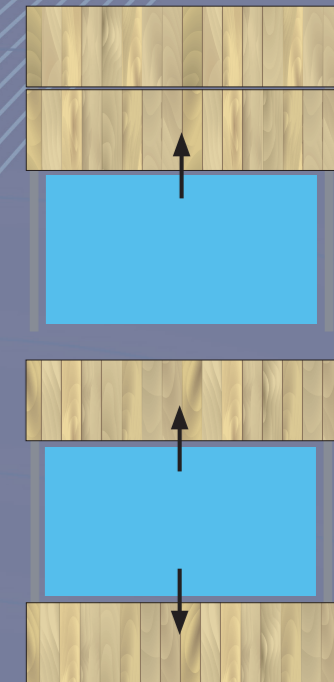

Modules can open with various possibilities:

• Installed on the length

• Installed on the width

Components :

• Brake with rubber pad and guide wheel

• Combined guide handle and brake applicator (option)

• Protective membrane to limit evaporation
