

 **NEW 2026**

BLUE CONNECT, THE NEW GENERATION OF SMART ASSISTANTS

FOR PERFECT WATER QUALITY CONTROL

Real-time water quality monitoring is now easier and more accurate than ever with **Blue Connect**, the new range of smart assistants for swimming pools from Zodiac®, designed to ensure water is always in perfect condition with effortless maintenance for any type of pool.

Exclusive features tailored to every need

Blue Connect integrates **state-of-the-art sensors** that continuously measure the main water parameters – temperature, pH, ORP (oxidation-reduction potential), and salinity (depending on the model) – ensuring that the pool always remains in optimal condition.

The range consists of two models, adapted to different types of pools:

- **Blue Connect Silver:** Recommended for freshwater pools.
- **Blue Connect Gold:** Compatible with both freshwater and saltwater pools.

Blue Connect Silver

Blue Connect Gold

Total connectivity and expert recommendations

Blue Connect integrates seamlessly with the **Fluidra Pool®** app, which provides **real-time** updates and alerts on water quality. The app also offers **personalized expert recommendations** to help keep pool water perfectly balanced.

Thanks to its **Wi-Fi and Bluetooth** connectivity, the pool can be monitored anytime and anywhere, ensuring professional-level control in the palm of your hand.

Enhanced features for effortless pool maintenance

The new generation of Blue Connect introduces innovations that make pool care even easier:

- **Flip&Flow LED indicator light**, displaying the water status instantly through color-coded signals.

- **Rechargeable USB-C battery**, offering a more sustainable, convenient, and long-lasting solution.
- **Compatibility with pool covers**, ensuring continuous water monitoring even when the pool is not in use.
- **Leak-proof design**, preventing water damage and simplifying maintenance tasks.

More information about Zodiac®

For over 100 years, Zodiac® has been developing cutting-edge technology with a constant focus on innovation.
