

Blue Horizons

Ultimate Water Clarifier

Key Features

- A highly effective dual-action clarifier
- Clears cloudy water fast
- Environmentally friendly formula
- Liquid for easy application

Ultimate Water Clarifier is a highly effective, environmentally friendly dual-action pool water polisher. It binds small particles together for rapid removal by the filter.

Application Instructions

1. Prior to product application, ensure the filter is operating efficiently (i.e., is not the reason for cloudiness). Backwash the filter if necessary.
2. Maintain the pH level within the ideal range of 7.2 – 7.6. If not in this range, adjust.
3. Apply the required amount of Blue Horizons Ultimate Water Clarifier to the pool, using the dosing table below as a guide.
4. Apply the product across the pool surface with the filtration turned “on”.
5. Keep the filtration running until clarity is restored, or for a minimum of 6 – 8 hours.
6. It may be necessary to backwash the filter again to remove all collected debris.

Litres	Gallons	Weekly maintenance	Cloudy Water
4,546	1,000	6ml	12ml
11,365	2,500	15ml	30ml
22,730	5,000	30ml	60ml
45,460	10,000	60ml	120ml
68,190	15,000	90ml	180ml

Note: Extremely slippery if spilt
