INTRODUCING THE NEW
Fantasy® Series
BY CALDERA® SPAS

Built for Lasting Value and Everyday Wellness.

Just fill it up, and start enjoying soothing hydrotherapy with minimal fuss and maintenance. Whether you want a cozy spa for two, or one that fits up to five, the Fantasy Series offers five versatile models to complement your space and lifestyle.

AFFORDABLE WELLNESS

Crafted using a rotational moulding process, each Fantasy model features a durable, unibody shell that is stylish, budget-friendly, and designed for years of enjoyment.

EASY WATER CARE

Fantasy Series spas come ready for the FROG[®] sanitising system. Prefilled cartridges automatically release bromine to keep water soft, clean, and clear with less effort. It self regulates based on the water's sanitisation needs, maintaining a consistent level of protection*.

PORTABLE

Lightweight yet strong, Fantasy Series spas are easy to move when empty, making them ideal for patios, small gardens, balconies, or second homes. Whether you are reimagining your space or relocating across town, your spa can move with you.

ENERGY EFFICIENT

With full-foam insulation, an internal heater, and a locking thermal cover, your spa maintains consistent warmth while operating efficiently. Every model meets the strict energy standards of the California Energy Commission (CEC), so you can relax knowing your spa is keeping energy costs in check.

MAKE SPACE FOR WHAT MATTERS MOST

Whether it is a quiet morning soak, a moment of stillness under the stars, or a chance to reconnect with loved ones, your Fantasy spa makes it easier to carve out space for the things that bring you joy, all with the peace of mind that comes from owning a Caldera[®] Spa.
