Material Safety Data Sheet According to 1907/2006/EC - Article 31

1. Identification of the substance/preparation and of the company/undertaking

1.1 Product Identifier Floating Dispenser

Index No: 613-031-00-5 CAS No: 87-90-1 EC No: 201-782-8

1.2 Relevant Identified uses of the substance or mixture and uses advised against

Uses: For disinfection of pool and spa water.

Restrictions: At this time we do not yet have information on identified uses.

1.3 Details of the supplier of the safety data sheet

Company: Complete Pool Controls Ltd

Unit 2, The Park Stoke Orchard Bishops Cleeve Gloucestershire GL52 7RS

Telephone: +44 (0) 8712 229081 Fax: +44 (0) 8712 229083

E-mail: sales@cpc-chemicals.co.uk

1.4 Emergency Telephone

Tel: +44 (0) 8712 229081 (office hours) +44 (0) 1242 300271 (outside of office hours)

2. Hazard Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Hazard Class
Ox. Sol. 2
Acute Tox. 4 *
Eye Irrit. 2
STOT SE 3
Aquatic Acute 1

Hazard Category
Target Organs
Hazard Statements
H272
H302
H319
H319
H335
H410

For the full text of the H statements mentioned in this section see Section 16.

Classification according to EU Directives 67/548/EEC or 1999/45/EC

Hazard Symbol/Category of danger Risk phrases

 Oxidising
 R8

 Harmful
 R22

 Irritant
 R31

 Dangerous for the environment
 R50/53

For the full text of the R phrases mentioned in this section see Section 16.

Most important adverse effects

Human Health: See section 11 for toxicological information. Physical & Chemical Hazards: See section 9 for toxicological information. Potential environmental effects: See section 12 for toxicological information.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

Hazard symbols:

(continued on Page 2)

2. Hazard Identification...cont

Signal word: Danger

Hazard statements: H272 May intensify fire; oxidiser

H302 Harmful if swallowed.
H319 Causes serious eye irritation
H400: Very toxic to aquatic life

H410: Very toxic to aquatic life with long lasting effects

H335+H336: May cause respiratory irritation. May cause drowsiness or dizziness

EUH031 Contact with acids liberates toxic gas.

Warning! Do not use together with other products. May release dangerous gases (chlorine).

Use biocides safely. Always read the label and product information before use.

Precautionary statements:

Prevention P102 Keep out of reach of children

P402 Store in a dry place.

Response P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing

Hazardous components which must be listed on the label

Trichloroisocyanuric Acid, copper sulphate and boric acid

2.3 Other Hazards

No other information is available.

3. Composition/information on ingredients

3.1 Substances

Chemical nature: Solid

| Chemical Name | Identification Numbers | | Amount % | |
|---------------------------|------------------------|-----------|-----------|--|
| | CAS No | EINECS | % | |
| Trichloroisocyanuric Acid | 87 - 90 -01 | 201-782-8 | 75 - 100% | |
| Copper Sulphate | 7758-98-7 | 231-847-6 | 0 - 5.1% | |
| Boric Acid | 10043-35-3 | 233-139-2 | 0 - 5.1% | |

4. First Aid measures

4.1 Description of first aid measures

General Advice: Take off all contaminated clothing immediately.

If inhaled: . . . Move to fresh air. Remove contaminated clothing and loosen remaining clothing. Seek

immediate medical advice.

In case of unconsciousness place patient stably in side position for transportation

In case of skin contact: Drench the skin with plenty of water. Remove contaminated clothing and wash before

reuse. If large areas of the skin is damaged or if irritation persists seek medical attention

In case of eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes. Consult an eye specialist immediately. Go to an ophthalmic

hospital if necessary.

(continued on Page 3)

4. First Aid measures

If swallowed: Clean mouth with water and drink afterwards plenty of water. Never give anything

by mouth to an unconscious person. Do NOT induce vomiting. Call a

physician immediately.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms: No further information available. Effects: No further information available.

4.3 Indication of immediate medical attention and special treatment needed

Treatment Treat Symptomatically.

5. Fire fighting measures

5.1 Extinguishing media:

Suitable extinguishing media: Powder or carbon dioxide

Unsuitable extinguishing media: Foam or water

5.2 Special hazards arising from the substance or mixture

Specific Hazards during fire fighting: In case of fire, the following can be released:

Nitrogen oxides (NOx) Hydrogen chloride (HCl)

5.3 Advice for fire-fighters

Fire-fighters should wear full protective clothing and self-contained breathing

Special protective equipment apparatus (SCBA). Thoroughly decontaminate fire-fighting equipment

including all fire fighting wearing apparel after the incident.

Further Information: Collect contaminated fire extinguishing water separately.

6. Accidental release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions: Use personal protective equipment. Provide adequate ventilation.

For personal protection see section 8.

6.2 Environmental precautions

Environmental precautions:

Do not flush into surface water or sanitary sewer system.

Avoid subsoil penetrat Avoid subsoil penetration

If the product contaminates rivers and lakes or drains inform respective authorities Local authorities should be advised if significant spillages cannot be contained

6.3 Methods and materials for containment and cleaning up

Sweep up, avoiding generation of dust, then immediately spread as a thin layer in an uncontaminated, dry open area, to avoid the possibility of hot spots forming. Gradually hose to drain ensuring large dilution. DO NOT store or transport swept up material. DO NOT return spilled material to original container. Do not add small amount of water to material. Where a spill has occurred in a confined space or an unventilated building and the material is damp and evolving chlorine, the rate of chlorine evolution can be reduced by covering the thinly spread solid with soda ash. For large spills notify Emergency Services.

6.4 Reference to other sections

For personal protection see section 8

7. Handling and storage

7.1 Precautions for safe handling

Hygiene measures:

Strong oxidising agent. DO NOT MIX WITH OTHER CHEMICALS. Mix only Advice on safe handling:

with water. Never add water to product. Always add product to water. Use

clean dry dispensing equipment.

Avoid contact with the skin and the eyes.

Keep away from food, drink and animal feeding stuffs. Smoking, eating and

drinking should be prohibited in the application area. Wash hands before breaks and at the end of the work day. Take off all contaminated clothing

immediately. Provide adequate ventilation. Avoid contact with the skin and

eyes.

7.2 Conditions for safe storage, including any incompatibilities.

Requirements for storage areas and Keep this product in original, sealed container when not in use. Store in a

cool, dry, well-ventilated area.

Normal measures for preventive fire protection Advice on protection against fire:

Further information on storage Keep away from children

Do not store together with acids Advice on common storage:

7.3 Specific end uses

containers:

Specific use(s) No information is available.

8. Exposure control/personal protection

8.1 Control parameters

Regulatory Basis: EU. Indicative Exposure and Directives relating to the protection of

risks related to work exposure to chemical, physical, and biological agents.

Control Limit No value assigned for this product

8.2 Exposure controls

Engineering measures Fume cupboard required when vapours/aerosol are generated.

Personal protective equipment

Respiratory protection Use suitable respiratory protective device when high concentrations are present.

Filter P2 Filter P3

Hand protection Wear suitable chemical resistant gloves

Glove Material Nitrile Rubber - NBR Butvl rubber - BR

> **PVC** Fluocarbon rubber (Viton)

Eye protection Advice: Tightly fitting safety goggles.

Skin and body protection Advice: Plastic apron, sleeves, boots-if handling large quantities

Environmental exposure controls

General room ventilation plus local exhaust should be used to maintain exposure below

General advice: TLV. Eyewash and emergency shower facilities recommended. Remove and wash

contaminated clothing before reuse.

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Form: Tablets Colour: Whitish

Odour: Characteristic chlorine

Odour Threshold: Currently we do not have any information from our supplier about this.

pH @ 20°C: 2.0 - 2.7

Solidification point Currently we do not have any information from our supplier about this.

Melting Point 225°C

Boiling point/boiling range: Undetermined

Flash point: Currently we do not have any information from our supplier about this.

Evaporation rate: Currently we do not have any information from our supplier about this.

Flammability (solid, gas) Not applicable

Upper explosion limit:

Lower explosion limit:

Currently we do not have any information from our supplier about this.

Currently we do not have any information from our supplier about this.

Currently we do not have any information from our supplier about this.

Currently we do not have any information from our supplier about this.

Currently we do not have any information from our supplier about this.

Density @ 20°C: ca. 2.5 g/cm³ Water solubility: 12 g/ 25 °C

Partition coeffcient:n-octanol/water: Currently we do not have any information from our supplier about this.

Ignition temperature: Currently we do not have any information from our supplier about this. Thermal decomposition: Currently we do not have any information from our supplier about this. Viscosity, kinematic: Currently we do not have any information from our supplier about this.

Explosive properties: If mixed with ammonia or sodium hydroxide and cyanuric acid

Oxidising properties: Product is an oxidiser

9.2 Other Information

10. Stability and reactivity

10.1 Reactivity

Advice: Currently we do not have any information from our supplier about this.

10.2 Chemical stability

Advice: Currently we do not have any information from our supplier about this.

10.3 Possibility of hazardous reactions

Hazardous reactions: Gives off hydrogen by reaction with metals. Reacts exothermic with water.

10.4 Conditions to avoid

Conditions to avoid High temperature. Poor ventilation. Contamination. Moisture/high humidity.

10.5 Incompatible materials

Materials to avoid Strong exothermic reaction with acids. Reacts with flammable substances.

Reacts with acids releasing chlorine. Reacts with reducing agents.

10.6 Hazardous decomposition products

Hazardous decomposition products: Nitrogen oxides (NOx)

Chlorine

11. Toxilogical Information

11.1 Information on toxilogical effects

Component: trichloroisocyanuric acid CAS No: 87-90-1

Acute Toxicity
Oral

Value type LD50
Value 406 mg/kg
Species Rat

Primary Irritant effect

On the skin: Powder may irritate skin after prolonged contact.

On the eye: Particles in the eyes may cause irritation and smarting

Carcinogenic This product is not listed as a carcinogen

Mutagenic Currently we do not have any information from our supplier about this.

Sensitization: No sensitizing effects known

Additional toxicological information: No specific symptoms noted.

12. Ecological Information

12.1 Toxicity

Acute Toxicity

EC50 0.2 mg/l (daphnia)

LC50 0.3 mg/l (Danio rerio (Zebrabärbling))

This product is toxic to fish and aquatic organisms.

Salts, acids and bases are typically diluted and neutralised when released to the envirnment in small doses.

DO NOT discharge effluent containing this product into lakes, streams, ponds or estuaries, oceans or their waters unless in accordance with the applicable regulatory requirements.

DO NOT discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority.

12.2 Persistence and degradability

Remarks: Currently we do not have any information from our supplier about this.

12.3 Bioaccumlative potential

Remarks: Currently we do not have any information from our supplier about this.

12.4 Mobility in soil

Remarks: soluble in water, predicted to have high mobility in soil.

12.5 Results of PBT and PvB assessment

Remarks: No data available

12.6 Other adverse effects

Remarks: No further information available

13. Disposal Considerations

13.1 Waste treatment methods

Disposal together with normal waste is not allowed. Special disposal is Product:

required according to local regulations. Do not let product enter drains.

Contact waste disposal services.

Empty contaminated packaging thoroughly. They can be re-cycled after Contaminated packaging:

thorough and proper cleaning. Packaging that cannot be cleaned is to be

disposed of in the same manner as the product

No waste code according to the European Waste Catalogue can be assigned for this product, as the intended use dictates the assignment. The waste code European Waste Catalogue No:

is established in consultation with the regional waste disposer.

14. Transport Information

14.1 UN Number 2468

TRICHLOROISOCYANURIC ACID, DRY 14.2 UN proper shipping name

Class 5.1 Classification Code 5.1 Hazard label 50 Transport Category 02 **Tunnel Code** Ε **Excepted Quantities** E1 **Limited Quantities** 1kg

14.5 Environmental hazards

Environmentally Hazardous

Marine Pollutant

14.6 Special precautions for user

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for this substance or mixture.

Regulatory List Notification **Notification No**

15.2 Chemical Safety Assessment

Currently we do no have any information from our supplier about this.

16. Other information

Full text of R-phrases referred to under sections 2 and 3

R8 Contact with combustible material may cause fire

R22 Harmful if swallowed

R31 Contact with acids liberates toxic gas
R36/37 Irritating to eyes and respiratory system

R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

Full text of H-statements referred to under sections 2 and 3

H272 May intensify fire; oxidiser.
H302 Harmful if swallowed.
H319 Causes serious eye irritation.
H335 May cause respiratory irritation.
H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

EUH031 Contact with acids liberates toxic gas.

Further information

Restricted to professional users. Attention - Avoid exposure- obtain special instructions before use
