

REMANSO

luxury aluminium pergolas

Create the ultimate outdoor living space

Outdoor Kitchen

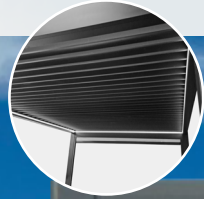

Hot Tub

Alfresco Dining

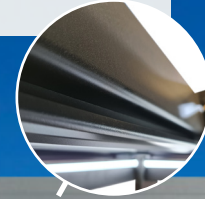

Motorised Roof Louvres

The motorised Remanso Louvres can rotate from their fully closed position through 145° (and be paused at any increment in-between) thus tracking the path of the sun creating your desired level of shading.

Integral Rainwater System

The Remanso boasts a innovative rainwater system that deals with heavy rainfall offering protection in all weathers. The drainage is part of a discreet internal system which allows the water to exit through the base of the posts.

Integrated LED Lighting

Integrated 360° degree LED lighting within the roof profile surrounds the Remanso to create a perfect outdoor setting day or night.

Adjustable Side Blinds

The Remanso has optional blinds that can be integrated within the louvred roof system allowing additional shade, shelter and privacy at the touch of a button.

Aluminium Frame

All Remanso Pergolas are built from heavy duty powder coated aluminium in a stunning Anthracite colour, to create a strong, hard wearing and reliable structure that will last for years to come.

Remote Control Included

Every Remanso comes with an easy-to use remote control that operates the roof louvres, LED lighting and optional vertical blinds.

Are you ready to create the ultimate outdoor living space?

To create a beautiful, relaxing outdoor space in your garden, the first thing you need is some shade.

An electric pergola is the perfect solution for outdoor living areas. Its all-weather roof design gives you so many options for relaxation, entertaining, cooking, and more.

Remanso creates a unique style element in any terrace, garden or outdoor living area.

Available Size Options:

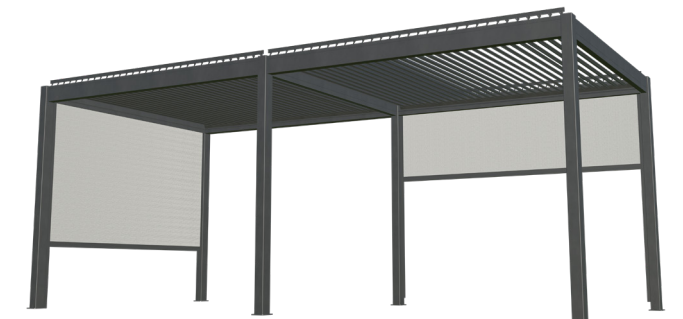

3m x 3m

4m x 3m

6m x 3m

Remanso Pergolas must be installed by an authorised dealer and is not designed for customer self-build. It is essential that the patio area/base is 100% level.

REMANSO

Luxury aluminium pergolas

Remanso Luxury Pergolas create the ultimate outdoor living space. Constructed from heavy duty powder coated aluminium with fully automatic opening and closing louvre-style roof. It allows a light breeze in when open, protects from the sun or the rain when closed. Includes LED roof lighting as standard.

Available with optional automatic blinds. All operated via remote control. Perfect for hot tubs, outdoor kitchens and alfresco dining.
