PLASTICA LADDERS AND HANDRAILS

Plastica manufacture a range of ladders for the domestic pool market.

Standard ladders are available in 2, 3, 4, and 5 tread sets complete with U.V. stabilised ABS treads and compression anchors for fixing into the ground.

- Full range of ladders in 38mm (1.5")
- 304 grade as standard or 316 grade stainless steel for salt water use (to order).
- U.V. stabilised ABS ladder treads in standard white
- Cross bracing for strength if required.
- Hinges for removing the ladder out of the water when using cover and reel system.
- Flange fixing when bolting the ladder directly to the pool surround level.
- Specials can be manufactured on request.

PERIMETER HANDRAIL AND BRACKETS

Plastica manufacture handrails for the internal perimeter of the swimming pool. The standard system comprises either polypropylene or stainless steel wall brackets and 3m lengths of stainless steel tube coupled together with internal plastic connectors.

OPTIONS AND EXTRAS

- Domestic polypropylene open and closed handrail brackets. 32mm (1.25")
- Domestic/Commercial open and closed handrail brackets in 316 grade stainless steel.
- Stainless steel handrail tube and brackets available in both 32mm (1.25") and 38mm (1.5").

ALTERNATIVE WIDE RANGE OF LADDERS AND HANDRAILS

- Slimline ladders available in 2, 3, 4 and 5 tread.
- Under cover ladders available in 2, 3, 4, and 5 tread with grabrails.
- Grabrails for spa's

ALL PLASTICA LADDERS AND HANDRAILS ARE MANUFACTURED WITHIN THEIR OWN FACILITY AND CAN BE TAILORED TO YOUR INDIVIDUAL REQUIREMENTS IF NECESSARY
