

# Affinity Marlin

## AFALU428/N/W

---

Offering all the same build quality and features of the 25" Affinity Marlin, the 28" version is a great option for any therapist requiring a full width, strong couch but still needs to be mobile and doesn't want to carry the weight of a good quality, 3-section wooden couch.

Offering rapid set up (less than 7 seconds) and easy, one-touch height control, the Affinity Marlin has been designed to be used and taken to the next appointment with the minimum of strain and difficulty for the mobile therapist. This strong table features our 4-leg cable system making it ideal for sports massage, mobile beauty treatments and, with an impressive maximum user weight, accommodating large clients (and often the therapist as well) without fuss.

As with all Affinity couches, the Affinity Marlin is fully height adjustable with telescopic legs that can be quickly and easily adjusted through a generous height range. A great, and seemingly unique, feature of Affinity's aluminium frame design is its stability when used at the upper levels of the height adjustment.

Should you need extra length or simply prefer the flexible positioning offered by the face cradle frame, the Marlin can be quickly and easily upgraded by adding the Affinity Power Therapist Upgrade Pack (face cradle & arm rest).

### KEY POINTS:

- Extremely comfortable
- Lifting back rest
- Therafoam sports padding
- Strong PVC upholstery
- Exceptional strength
- Generous proportions
- Great portability
- Excellent stability
- Reiki end panels
- Rapid set up
- Generous height adjustment
- Affinity ergonomic breathe hole and bung
- Quality carry case included
- Port holes either end for paper towel/face cradle frame
