

# Affinity Diva Spa Pro

## AFDIVASAPRO/B

---

The Affinity Diva Spa Pro is a very flexible, fully electric, multi-functional couch that happily lends itself to any treatment but is most commonly used for massage, reflexology, hypnotherapy, beauty and body treatments. A wonderful investment for any professional spa/salon or treatment/therapy centre.

With a generous 4 inches of sumptuous Therafoam comfort padding, soft touch PU upholstery and padded side arm rests, the Affinity Diva Spa Pro takes client comfort and security to another level. For added comfort and convenience, not to mention flexible therapist positioning, the Diva Spa Pro includes a nape bolster, breathe hole and face cradle frame with cushion and hanging arm rest.

One of the Affinity Diva Spa Pro's most renowned features is its clearance meaning that, as with all Affinity couches, therapists can get their knees under the couch for seated treatments, whilst still being able to enjoy having the under-couch storage cabinet.

Another key feature has to be the ease of adjustment. The Diva Spa Pro's height is adjusted via the foot pedal, which can be easily accessed from either side of the couch, whilst a conveniently positioned, user friendly hand-held control panel can also be used to operate the back and knee rest angles as well as the height. Making the couch move are 4 European Dewert actuators which are renowned for their reliability and longevity.

The Affinity Diva Spa Pro is a truly luxurious, great-looking, fully electric couch that will ensure your customers have the best treatment experience and looks the part in any environment thanks to its classic and timeless design.
