

# The Aquaflex Air Structure

With installation only taking approximately 4 hours, you can start enjoying your air structure the same day you receive it. It not only protects children and animals from the pool, it keeps out leaves and other debris reducing pool cleaning time. It will cut your chemical and heating costs as well as help warm the pool by solar gain.

**Cable Anchor System**  
(Requires solid fixing points)

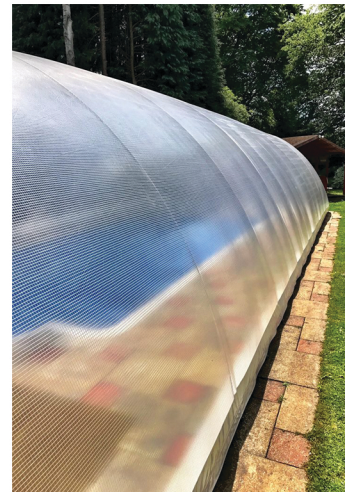

**Inflation Fan**  
(in weather proof housing)

**Zip Replacement**
