

Affinity Versalite (25")

AFVERSALITE/N

At just 12.5kgs the 25", Affinity Versalite is the lightest professional, board mattress, massage couch currently on the market, making it perfect for mobile therapists.

Although incredibly light, none of the regular Affinity standards have been compromised. The couch features the ergonomic Affinity shaped breathe hole and port holes in either end to allow a face cradle frame and paper towel holder to be used at the same time.

To maximise client comfort, Affinity's Therafoam comfort padding is covered with luxurious, soft touch PU which is highly durable and both tear and stain resistant.

The Versalite couch features generous, easy height adjustment via the one touch, spring back push button system and, as with all Affinity aluminium framed couches, it offers exceptional stability when being used at the top end of the height settings. If using the couch at full height, it can also be closed and packed away without the need to shorten the legs.

As with all Affinity portable couches, a quality carry case featuring a large front storage pocket, metal zips and fixings and posture friendly carry handles, is included as standard.

This couch also comes in a 28" inch width.

Key Features:

- Exceptionally light weight
- Therafoam comfort padding
- Luxury feel PU upholstery
- Quality construction
- Strong aluminium frame
- Affinity ergonomic breathe hole and bung
- Reiki end panels
- Soft touch carry handle
- Rounded corners
- Rapid setup

- Generous height adjustment
- Quality carry case included
- Can be upgraded with the Power Therapist Upgrade Pack to include a face cradle and armrest
- Non slip feet
- Excellent stability
- Dual end port holes
- Couch can be closed without shortening legs

Power Therapist Upgrade Pack:

For the therapist that is regularly treating very tall clients or simply prefers to use a face cradle frame, the Affinity Versalite can be quickly and easily upgraded with the addition of the Affinity Power Therapist Upgrade Pack. The pack includes a face cradle frame, cradle cushion and hanging arm rest.
