

Protect & Clean

2in1 gel to clean the pool waterline. Scaling and degreasing. Easy to apply. Protect from stains embedded on the coating.

Application purpose

Function of the product: cleaning of the waterline.

The Protect & Clean 2in1 formula removes limestone and calcium deposits at the waterline level. The viscous gel allows for optimal adherence, even on vertical surfaces, and protects the pool surface from persistent stains when used regularly.

Product description

Highly concentrated acidic gel cleaner.

Compatible with all pool surfaces.

Contains: Phosphoric acid, anionic surfactants.

Application

- Moisten the surface to be cleaned.
- Then apply Protect & Clean and leave it on for 5 minutes.
- Now scrub the surface with a sponge or a hand brush.
- Finally, thoroughly clean the surface with water and rinse off.

Important notes: Unsuitable for all non-acid-resistant materials.

Before use, test the product on a small area to check if the surface is appropriate or not.

Ref.: 4113211
Weight: 350 ml (0,35 l)

Product benefits:

- 1 2in1 formula: Removes limestone and calcium deposits
- 2 Easy and simple to use
- 3 Viscous gel – therefore optimal adherence and efficient results after 5 min. only!
- 4 Hydrochloric acid-free
- 5 Protects the pool waterline from persistent stains with regular use

Comfort care
