

Protect & Shine

Ready-to-use liquid product with 2-in-1 formula. Protects the waterline against dirt deposits. For crystal-clear and sparkling pool water.

Use

Function of the product: Protection of the pool and clarifier

Thanks to the unique formula the pool water becomes visibly more brilliant and crystal clear, and the cleaning of the waterline is considerably simplified. Prevents dirt and grease deposits on the waterline and skimmer.

Product description

Liquid concentrate. 2 l canister with measuring cup.

Compatible with all types of filters and disinfection methods. Contains: Aluminium sulphate 14-hydrate.

Dosing/instructions for use

- Shake canister before use.
- Pour the product undiluted into the pool while the circulation pump is running in front of the inlet nozzles.
- Allow the circulation pump to run for at least 12 hours after addition. The product may foam during use.
- Dosage: 40 ml per 10 m³ every 7 days.

Important notes:

Close the container tightly before shaking. Wear protective gloves. Before adding, check the pH value with BAYROL test strips or the BAYROL pool tester and, if necessary, adjust it to the ideal range between 7.0 and 7.4.

Attention:

Never mix chemicals with other chemicals, neither in solid form still in concentrated solution! Product always in water dosage, not the other way around. Do not store below 5 °C.

Ref.: 4195351
Weight: 2 l canister
