

# Blue Horizons

## Ultimate Phos Granules

### Key Features

- Highly concentrated granular phosphate remover
- Easy-to-dose twin sachet
- Fewer algae problems
- Less cleaning and vacuuming

Rapid dissolving Blue Horizons Ultimate Phos Granules help reduce phosphate levels in your pool water, thereby removing a food source for algae growth.

### Application Instructions

1. If the pool has algae, follow normal steps to cure.
2. Maintain pH level within the ideal range of 7.2 – 7.6. If not in this range, adjust.
3. Backwash the filter if necessary.
4. Carefully cut open the sachet and pour the whole contents directly into a clean and empty skimmer. Alternatively, add to the pool near the water inlets to aid distribution.
5. Run the filtration for a minimum of 24 hours after product application.
6. Check the filter pressure and backwash if necessary.
7. Re-test phosphate levels 48 hours after application.

Litres	Gallons	Routine	Phosphate level: 1,000ppb	Phosphate level: 2,500ppb	Phosphate level: 5,000ppb
4,546	1,000	2g	11g	29g	60g
11,365	2,500	4g	27g	73g	150g
22,730	5,000	8g	54g	145g	298g
45,460	10,000	15g	107g	290g	595g
68,190	15,000	23g	160g	435g	893g

\*Parts per billion

**Note:** A regular dose of Ultimate Phos Granules may be required, to keep phosphate levels below 250ppb.
