

In 2020, a new 7,000 m<sup>2</sup> production hall for stainless steel pools was completed and all production is carried out at our 17,000 m<sup>2</sup> site in Valašské Meziříčí.

Ing. Martin Lukáš - owner

## Celebrating 30 Years as Europe's Leading Pool and Pool Enclosure Manufacturer

Marking 30 years of innovation and excellence, Diamant Unipool has evolved from a visionary venture by the founder into a high-tech leader in the pool industry. Since its inception in 1994, Diamant Unipool has successfully completed more than 25.000 projects, making it one of Europe's premier pool manufacturers.

Since the beginning, we have focused on the high quality of our pools and enclosures and we have never resorted to mass production of inferior quality products. We invest significant resources into development and innovation of our products each year. We do not copy outside ideas but implement our own. Many of our associates have been in our company since the beginning and thanks to their experience we are able to fulfil even the most demanding customer requests.

We keep in mind that it is you, our customers, that allow us to continue the work we love. The satisfaction of our customers and good reputation of the Diamant Unipool s.r.o. company is our primary goal.

## COMPACT ELEGANCE

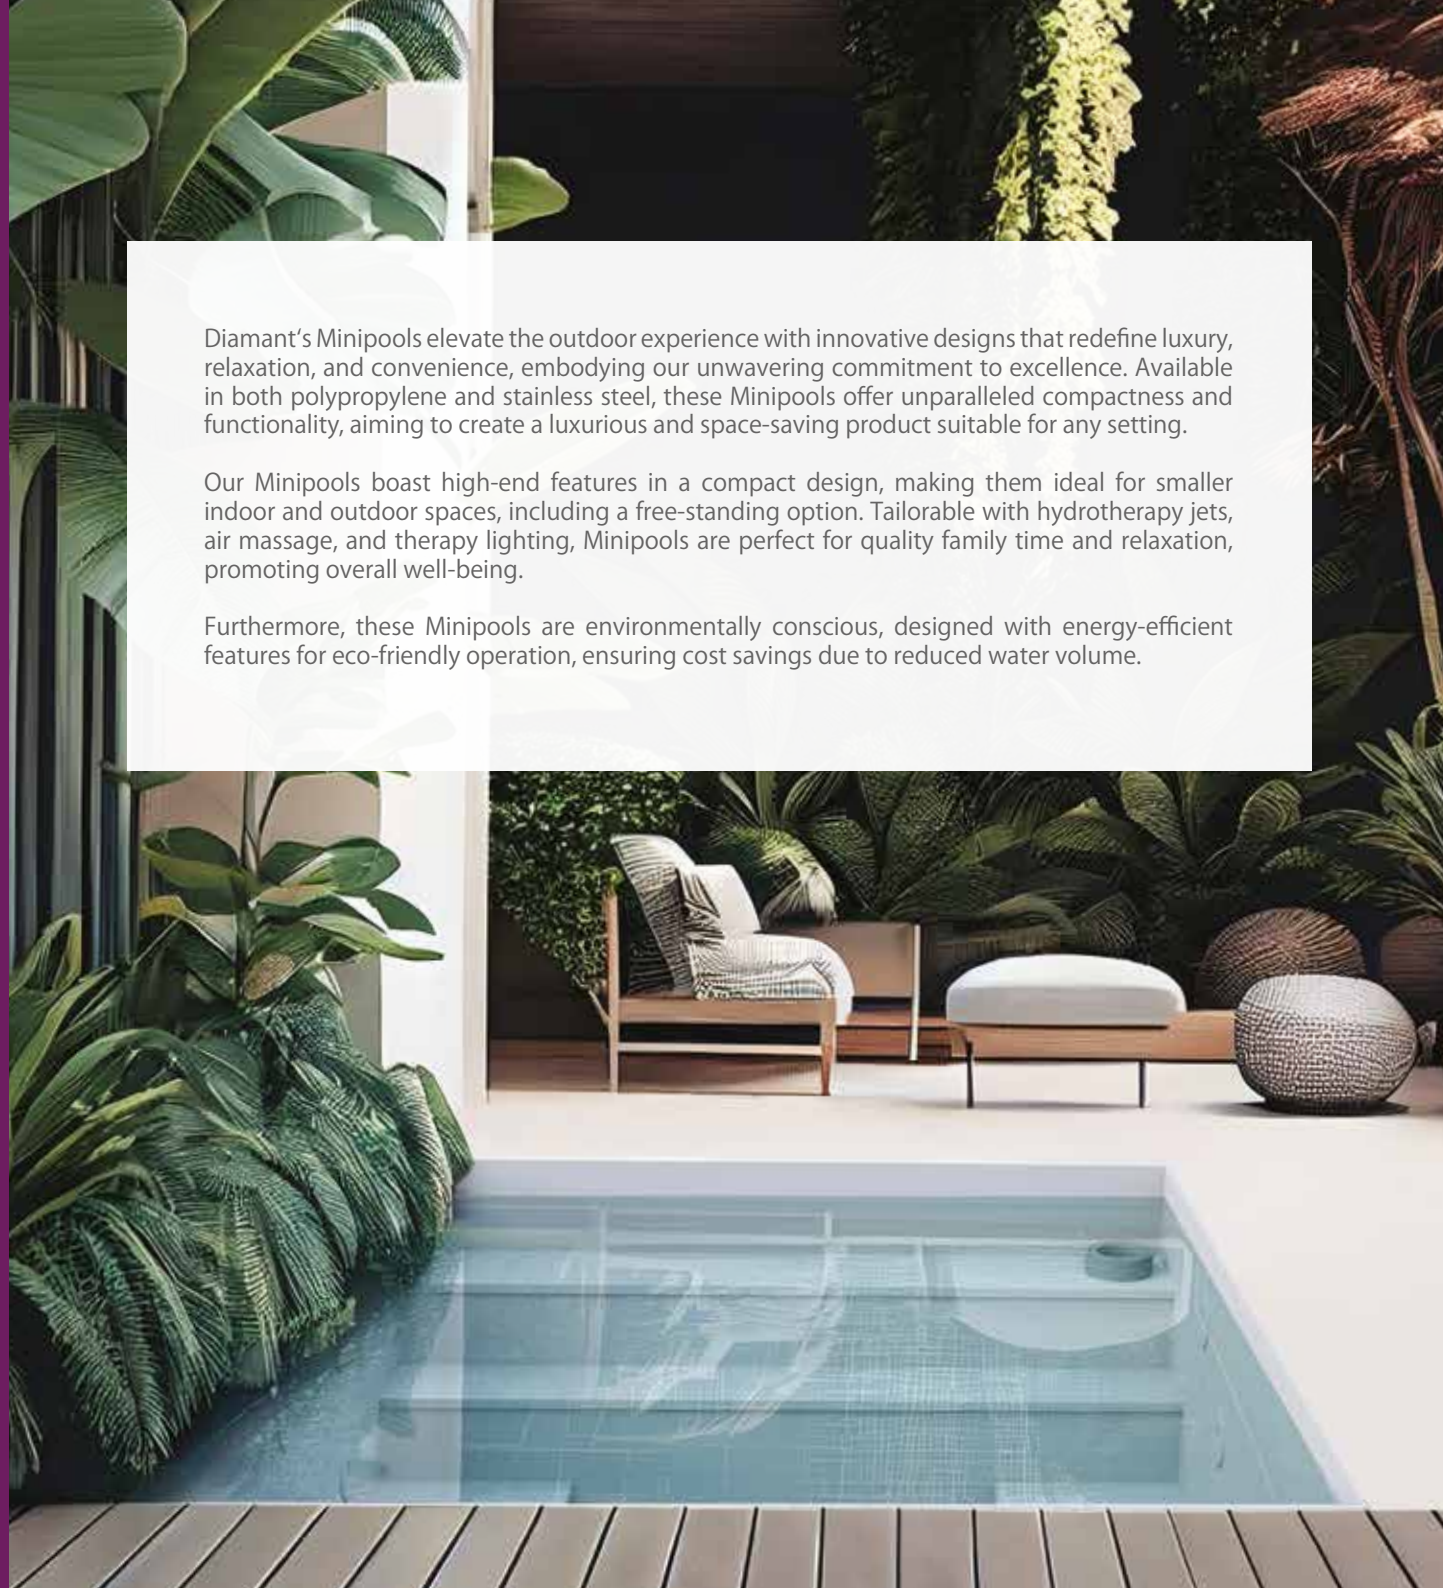

### YOUR MINI OASIS OF RELAXATION

- Ideal for compact gardens, terraces & roofs
- Tailored features for personal touch
- Luxury and design in limited spaces
- Therapeutic hydrotherapy benefits
- Eco-friendly & costs saving operation
- Private stress relief oasis
- Enjoyable space for family & friends

Diamant's Minipools elevate the outdoor experience with innovative designs that redefine luxury, relaxation, and convenience, embodying our unwavering commitment to excellence. Available in both polypropylene and stainless steel, these Minipools offer unparalleled compactness and functionality, aiming to create a luxurious and space-saving product suitable for any setting.

Our Minipools boast high-end features in a compact design, making them ideal for smaller indoor and outdoor spaces, including a free-standing option. Tailorable with hydrotherapy jets, air massage, and therapy lighting, Minipools are perfect for quality family time and relaxation, promoting overall well-being.

Furthermore, these Minipools are environmentally conscious, designed with energy-efficient features for eco-friendly operation, ensuring cost savings due to reduced water volume.

## POLYPROPYLENE MINIPOOL

High temperature resistance

No risk of osmosis

Suitable for use with salt water

Available in various colors

Colored, single-layer material  
with a smooth, non-porous surface

## STAINLESS STEEL MINIPOOL

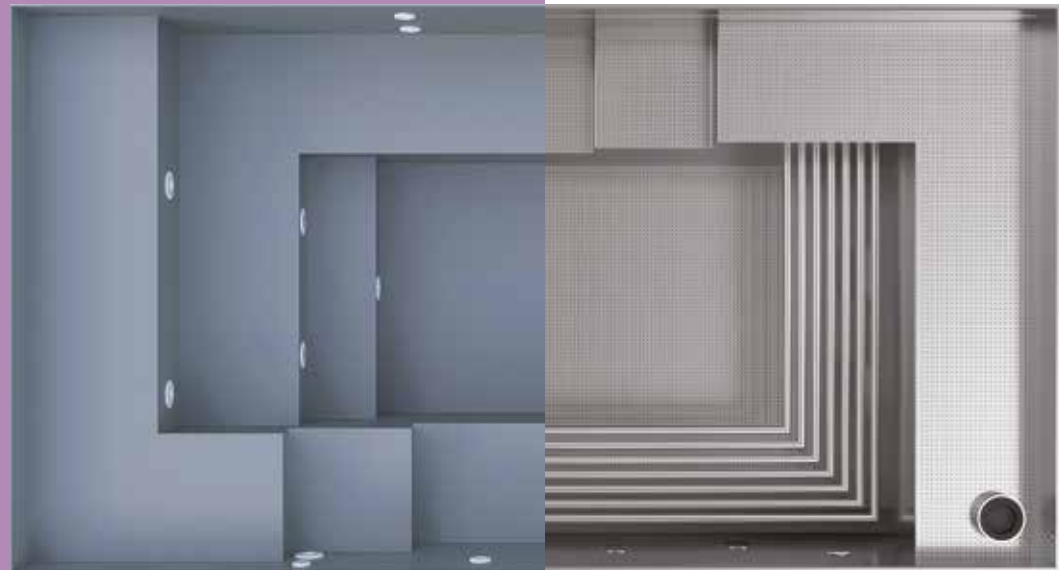

Unlimited lifespan

Luxurious modern design

Hygienic surface

Easy maintenance

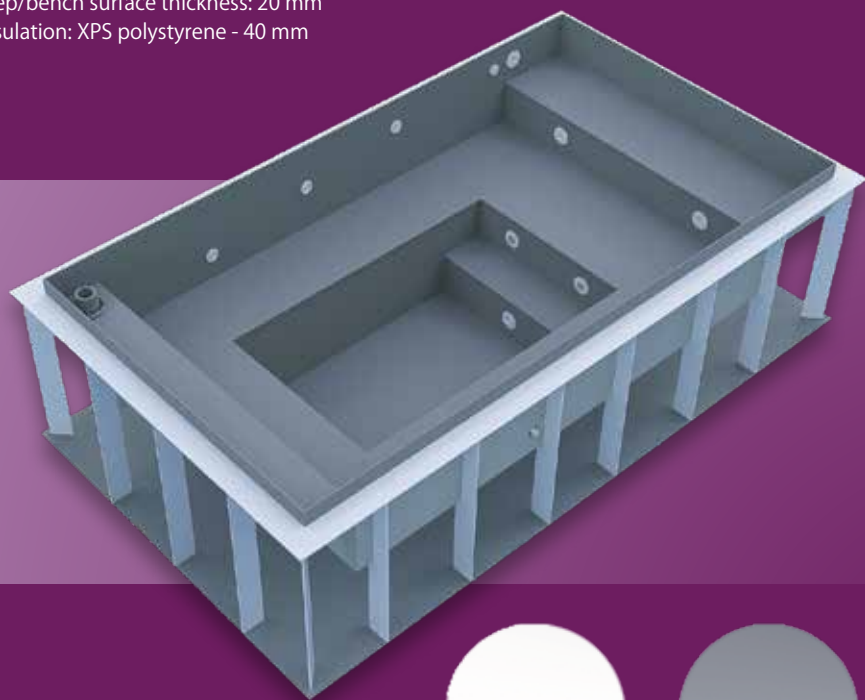

Eco-friendly material

## TECHNICAL DATA

- Typ: skimmer
- Material: polypropylene
- Wall thickness: 10 mm
- Bottom thickness: 8 mm
- Step/bench surface thickness: 20 mm
- Insulation: XPS polystyrene - 40 mm

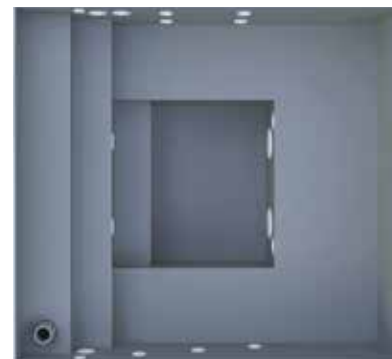

Polypropylene  
white

Polypropylene  
grey (RAL 7004)

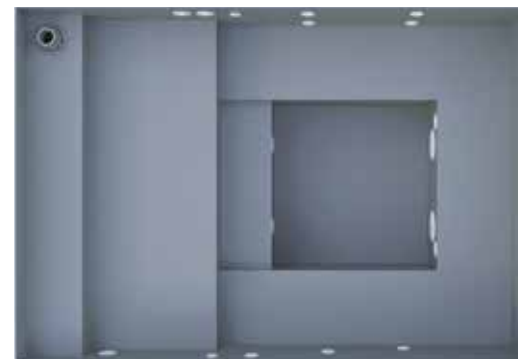

## FUN

- Interior dimensions: 2,2 x 2,4 x 1,2 m
- Exterior dimensions: 2,5 x 2,7 x 1,2 m
- Water volume: 3 180 l
- Seating: 3-4 persons

- Circulation: floating skimmer
- Nozzles: 2 pcs inlet nozzles  
1 pc suction nozzle

## REST

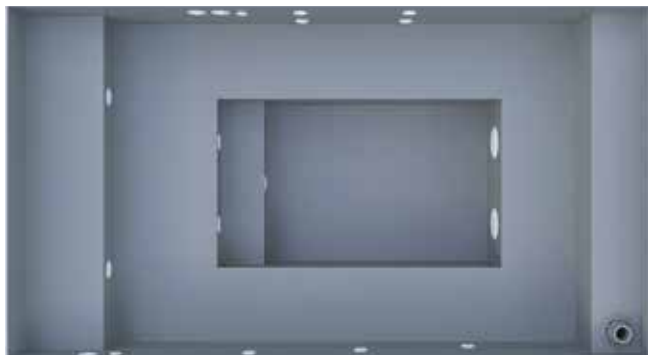

- Interior dimensions: 2,2 x 3,2 x 1,2 m
- Exterior dimensions: 2,5 x 3,5 x 1,2 m
- Water volume: 5 000 l
- Seating: 4-5 persons

- Circulation: floating skimmer
- Nozzles: 2 pcs inlet nozzles  
1 pc suction nozzle

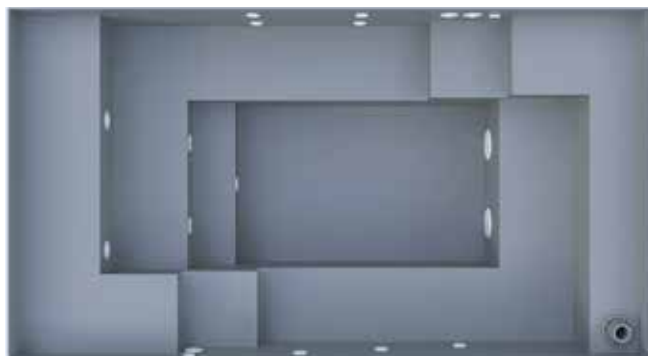

## RELAX

- Interior dimensions: 2,2 x 4,0 x 1,2 m
- Exterior dimensions: 2,5 x 4,3 x 1,2 m
- Water volume: 5 480 l
- Seating: 6-8 persons

- Circulation: floating skimmer
- Nozzles: 3 pcs inlet nozzles  
1 pc suction nozzle

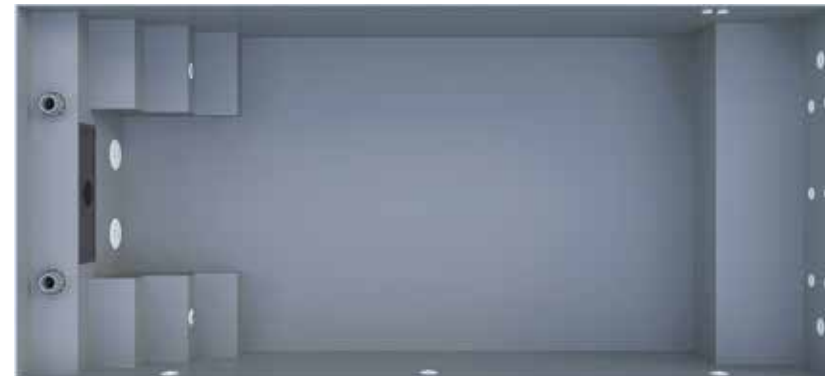

## PURE

- Interior dimensions: 2,2 x 4,0 x 1,2 m
- Exterior dimensions: 2,5 x 4,3 x 1,2 m
- Water volume: 5 210 l
- Seating: 6-8 persons

- Circulation: floating skimmer
- Nozzles: 3 pcs inlet nozzles  
1 pc suction nozzle

## SWIM & PLAY

- Interior dimensions: 2,4 x 5,25 x 1,2 m
- Exterior dimensions: 2,7 x 5,55 x 1,2 m
- Water volume: 12 170 l
- Seating: 3 persons

- Circulation: 2 floating skimmers
- Nozzles: 2 pcs inlet nozzles  
1 pc suction nozzle

# FULLY EQUIPPED POLYPROPYLENE MINIPOOL

1

### 1/ PROFESSIONAL WATER CLEANING

The design floating skimmer is a professional aid in pool cleaning, efficiently gathering all surface impurities. Unlike a standard wall-mounted skimmer, the floating skimmer allows for greater water level fluctuation in the minipool, requires no access behind the pool, and can directly accommodate a filter cartridge.

2

### 2/ CHROMOTHERAPY

Enhance the relaxation experience with two RGB spotlights, creating a serene environment. Soothing blue and green shades help alleviate stress, while vibrant red and yellow tones provide a burst of renewed energy.

3

### 3/ HYDROTHERAPY

Indulge in 6-7 quality hydro massage jets that perfectly soothe your muscles and provide physical and psychological rejuvenation. Hydrotherapy enhances blood circulation in the veins, alleviates muscle tension, and invigorates the lymphatic system.

### 1/ FLOATING SKIMMER

The design floating skimmer is a professional aid in pool cleaning, efficiently gathering all surface impurities. Unlike a standard wall-mounted skimmer, the floating skimmer allows for greater water level fluctuation in the minipool, requires no access behind the pool, and can directly accommodate a filter cartridge.

### 2/ CHROMOTHERAPY

Enhance the relaxation experience with two RGB spotlights, creating a serene environment. Soothing blue and green shades help alleviate stress, while vibrant red and yellow tones provide a burst of renewed energy.

### 3/ HYDROTHERAPY

Indulge in 6-7 quality hydro massage jets that perfectly soothe your muscles and provide physical and psychological rejuvenation. Hydrotherapy enhances blood circulation in the veins, alleviates muscle tension, and invigorates the lymphatic system.

### 4/ AIRTHERAPY

Thanks to the air bench, you can enjoy a luxurious bubble massage like in a wellness center. The intense flow of small bubbles will relax your body, gently massage your muscles, and enhance blood circulation in the skin.

# STAINLESS STEEL MINIPOOLS' INSTALLATION VARIANTS

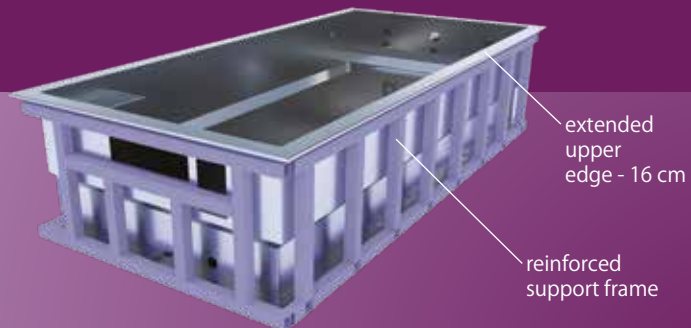

## STANDARD

In-ground minipool for concreting. Right variant for poured concrete: the pool is placed on a concrete base and filled with water, while the side walls are backfilled with a dry or semi-dry concrete mix for reinforcement.

## FREE-STANDING

Above-ground minipool, free-standing construction - self-supporting model featuring an extended upper edge and a reinforced support frame. This solid frame design does not require in-ground installation, ensuring easy integration into any setting. Ideal for terraces, roofs, or sloping terrain, our minipool exceeds project requirements while enhancing any space.

# THE FUTURE BUILT ON STAINLESS STEEL

The AISI 316L stainless steel used in Diamant Minipools offers a range of excellent production options and guarantees long life-span, maximum stability and durability. The steel known as “Austenitic stainless steel” is an alloy of several metals, such as chromium, nickel, carbon, and molybdenum.

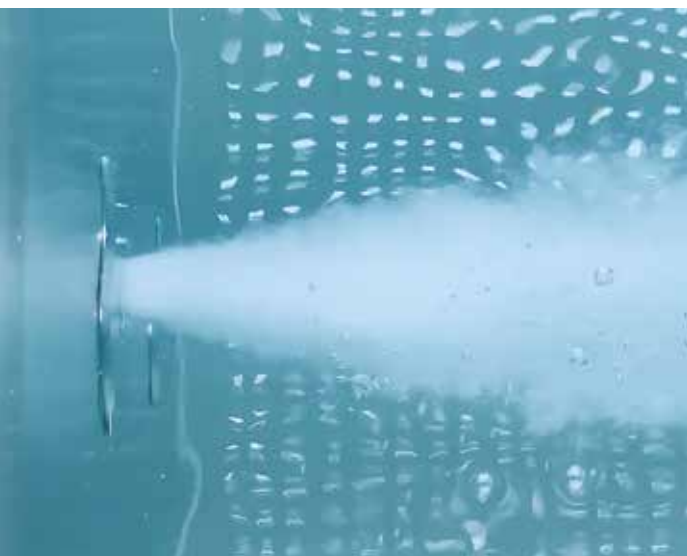

It is a multifunctional material that gives the pool a fresh, luxurious and modern look and is an ideal choice for outdoor use.

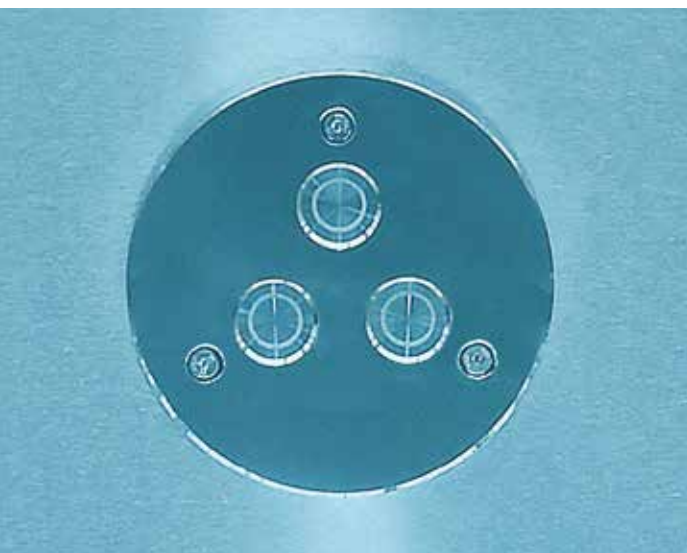

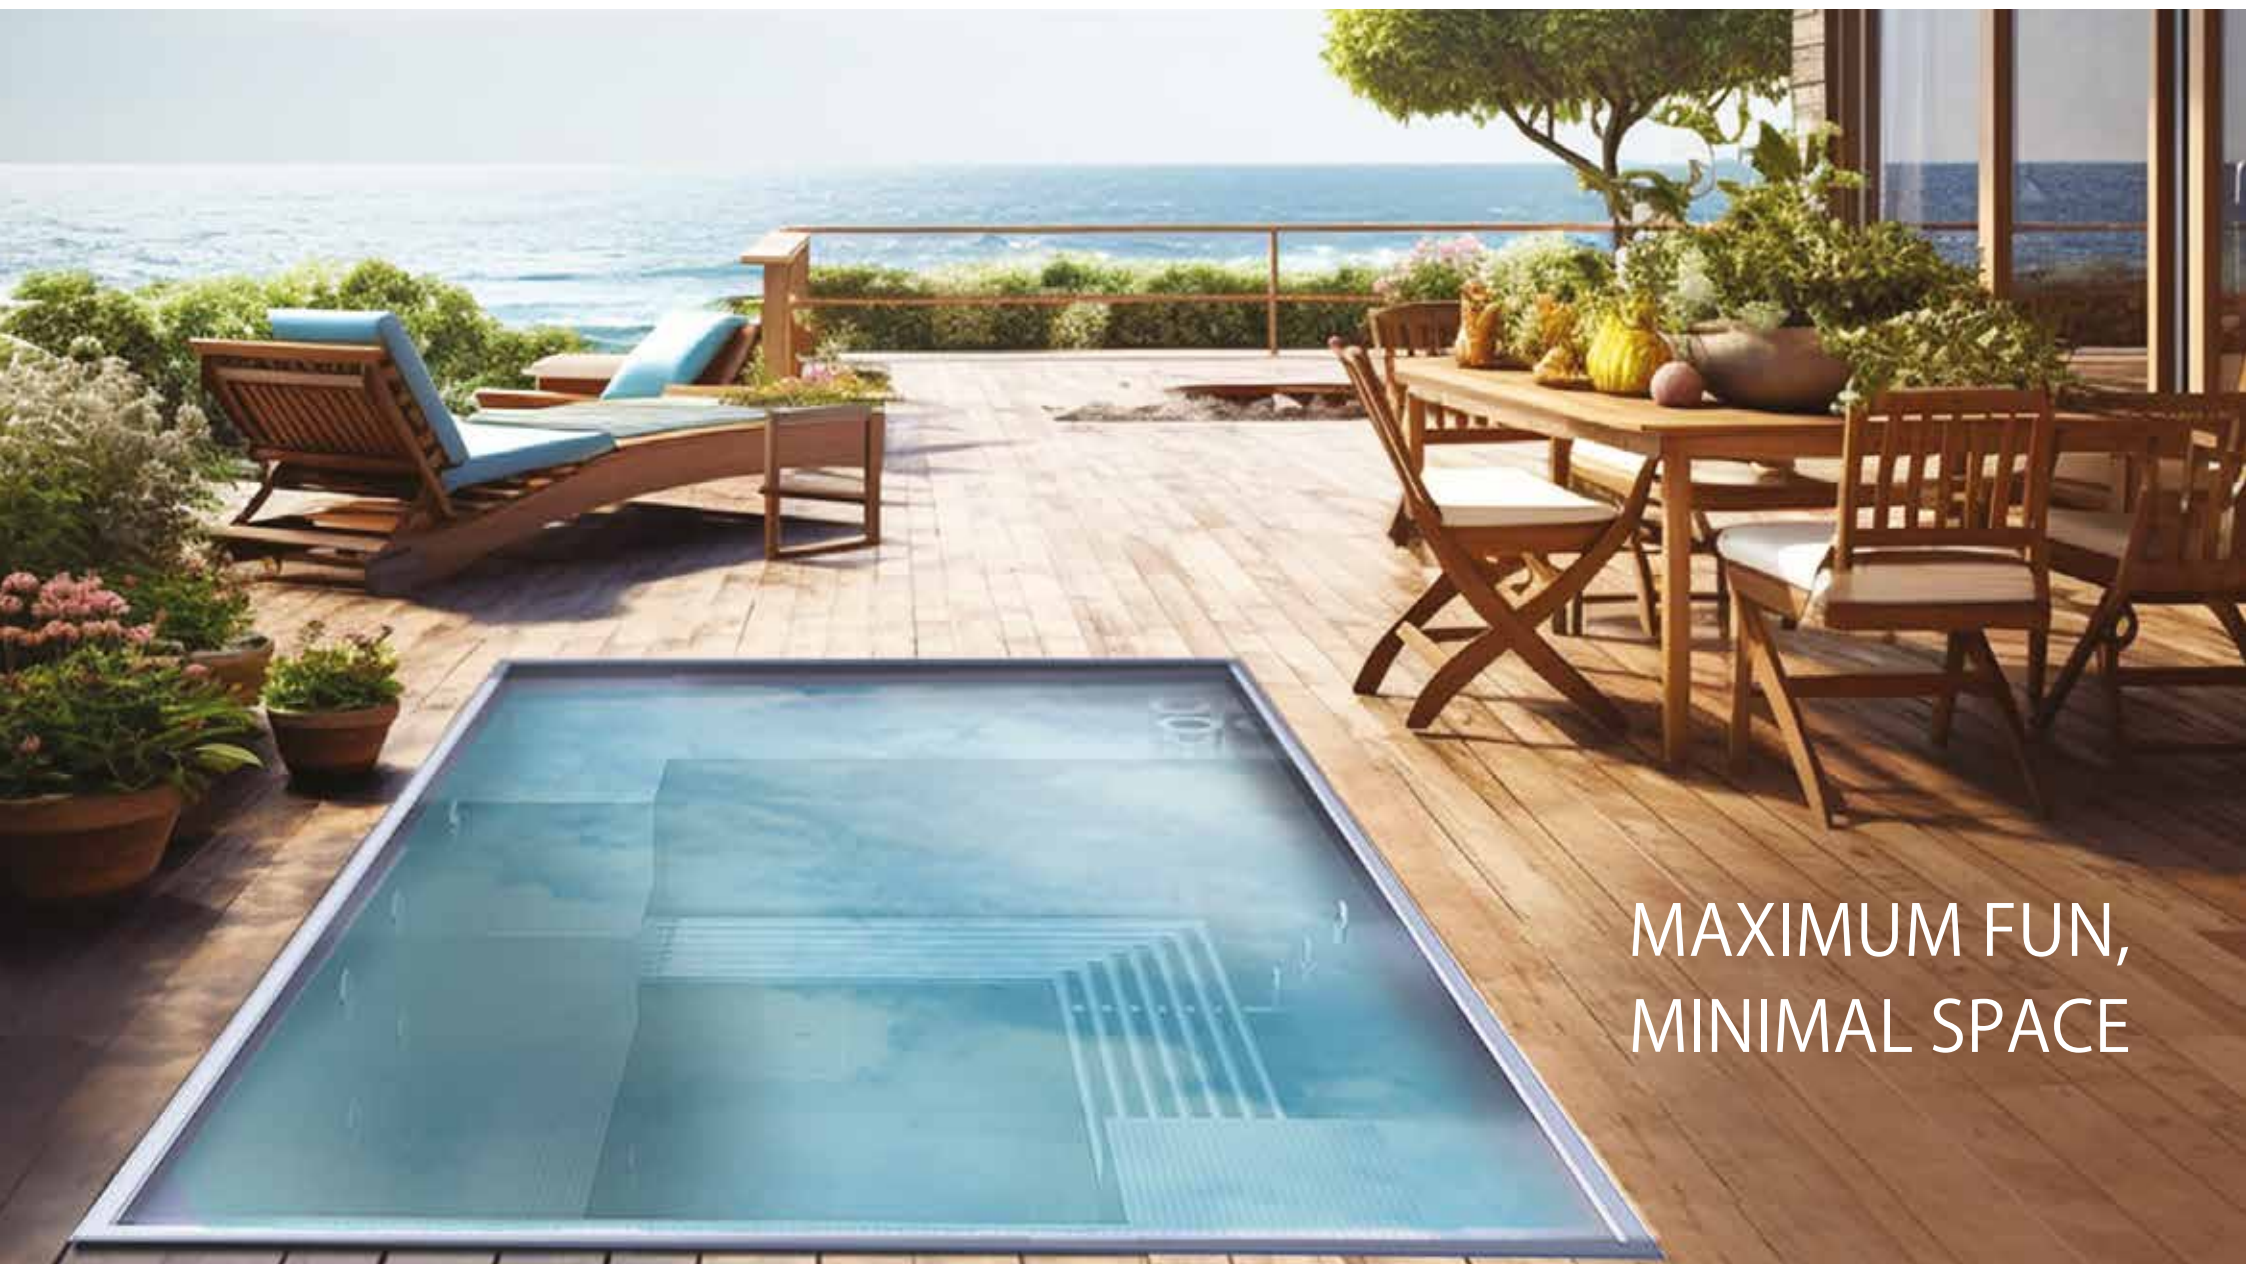

# RELAXATION AND INNOVATION

Experience the ultimate relaxation spot with our Diamant Minipools. Designed for more than just refreshing, these pools serve as a perfect retreat for stress relief, deep relaxation and meeting fitness needs.

We are dedicated to innovation, constantly updating our products to stay ahead of the latest trends demanded by our customers. By tirelessly improving our designs, we aim to deliver the highest satisfaction. Enjoy the luxurious tranquility and versatile functionality of our stainless steel minipools.
