Reef Full Floor Liner

Latham Vinyl Liners

The vinyl liner you select will play a huge role in what your pool looks like. What color will the water be when you look through it? How will the sunshine look dancing along the surface in the early morning—or at dusk? The wide variety of vinyl liner options offered by Latham will ensure that your pool looks the way you want it to, and that it matches your vision of what a pool can be.

Our liners are fabricated using only premium vinyl material that meets and exceeds the industry standard. All Latham liners are formulated with antimicrobial and UV inhibitors, designed to resist normal degradation and provide a beautiful looking pool for years to come. In addition, our liners are custom-made based on your pool measurements using state-of-the-art design software, resulting in the industry's best fitting liner.

Warranty

Latham vinyl liners have a 25-year limited transferable warranty in Canada, with 5-year full coverage and 20-year prorated coverage against manufacturer defects.

With the Latham Liner Visualizer you can design your perfect pool, from anywhere and on any device—right down to the color of the water.

The Ultra-Seam® Advantage

All Latham liners come with our exclusive Ultra-Seam technology—the strongest seam you’ll never see. This patent-pending liner seaming technology not only provides stronger liner seams for your pool, it is also virtually invisible—something that standard welded liner seams simply cannot achieve.

Standard – Floor seams are visible on standard liners.

Ultra-Seam – No visible floor seams.

The Pearlscape™ Collection is the newest addition to our liner collection. The iridescent patterns of Pearlscape will glimmer in the sunlight, and reflect beautifully at night.

Vinyl Over Steps

Add a layer of beauty, sophistication and convenience to any existing pool. Our vinyl over steps system can be used in any type of vinyl-lined pool—polymer wall or steel wall. Consider our vinyl over steps system for a beautiful, uninterrupted liner pattern across your pool, and to build steps customized to your design specifications.

Smart pool owners consider safety first, and take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool.

There are several best practices that are essential to safe pool operation:

- Ensure that the pool is kept in good repair and is not used when there is a missing or broken component.
- Anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgment should not use the pool.
- Ensure that the pool is protected by appropriate barriers to unsupervised entry, including fencing with self-latching gates, covers, alarms, etc.

There are a number of items that are essential for pool safety, all of which should be installed in accordance with the manufacturer's instructions as well as state and local statutes:

- Safety ropes should remain in place at all times.
- "No Diving" signs should be placed appropriately and in accordance with directions.
- Latham provides an area sign which must be permanently and conspicuously affixed in the pool area.
- You must have means of entry into and exit from the pool.
- You must have fencing with a self-latching gate that prevents children and pets from reaching the pool unsupervised, in accordance with local regulations.
- You must have approved drain covers to protect against suction entrapment.
- You must have the minimum required inlets and returns to ensure proper water circulation.
- Appropriate in-pool lighting should be used at night.
- Diving boards and slides require minimum depths and distances and must be installed in strict compliance with the manufacturer's specifications. If your pool is labeled "Non-diving," do not install diving equipment.

Several books and other items about pool safety are included with each Latham pool. Carefully read these and make them accessible to those who use your pool:

- Pool Owners' Safety Book
- PHTA "Sensible Way" Book
- Lifetime Limited Warranty
- "Children Aren't Waterproof" Pamphlet
- "Non-diving" Label
- Additional Warning Labels
- Use and Care Manual
- Safety Sign Installation Sheet
- Additional Signs and Labels

Be sure your installer supplies you with all of the safety information that accompanies your pool and installs the warning stickers and area sign where they can be clearly visible to all who use the pool.

We also recommend that you contact your local American Red Cross for available CPR and other vital safety programs.

References to light, medium and dark shades are general and do not guarantee the effect the vinyl liners will have on the color of a pool. All vinyl liner graphics are for illustration purposes only. It is recommended by the manufacturer to view an actual vinyl sample before ordering your liner. Color may vary from printed brochure. The manufacturer reserves the right to change liner selections without notice. © Latham Pool Products, Inc. 2020. All rights reserved.

NOTICE: The manufacturer stands behind every product they produce pursuant to those representations which are stated in the written warranties. Your dealer/builder/contractor is an independent businessperson and not an agent or employee of the manufacturer. The manufacturer cannot and does not accept any responsibility for any representations, statements or contracts made by any dealer/builder/contractor.

The specifications in this brochure were believed to be true at the time of printing. However, specifications, standard equipment and options are subject to change without notice.

The manufacturer does not manufacture slides, diving boards, or any other diving equipment. Any use of such equipment must be in strict compliance with the equipment manufacturer's specifications, The Association of Pool and Spa Professionals' (APSP) Standards, as well as local building codes and regulations.

In some pictures, the safety line rope and floats, and safety signage have been removed from the pool for photographic purposes. The safety line should be permanently attached at all times. We also urge you to use handrails and grab rails in accordance with the APSP Standards.
