

Without doubt the best suction cleaning robot for X-treme cleaning performance

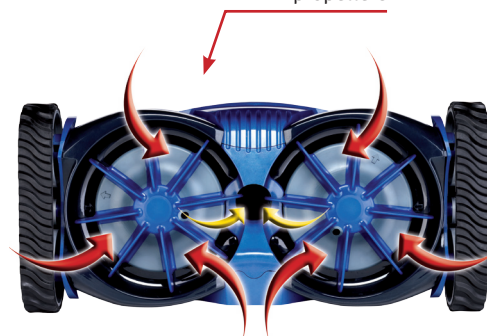

“ DID YOU KNOW? ”

PATENTED INNOVATIONS

The MX8 vacuum robot benefits from mechanical suction technology, for methodical and thorough cleaning. A **powerful turbine, complemented with two propellers** guarantees boosted suction power. The **tracked wheels** ensure enhanced motor ability and coverage. Thanks to the combination of these 2 elements, your cleaning robot will bring you **unprecedented vacuum performances**.

► **RESULT: the MX8 adapts to all types of pools and offers X-treme cleaning performance.**

Powerful vacuum turbine with 2 propellers

Why opt for the MX8 suction cleaning robot?

The MX8 features an innovating pre-programmed steering system -the **X-drive**- that automatically handles changes in direction. This ensures that the robot **will methodically explore all zones in your pool**, regardless of its shape and type of bottom. Drain plug, lights, safety ledge... **Thanks to its notched tracked wheels system it can handle all types of obstacles.**

The MX8 also feature a **powerful suction turbine**, which efficiency is boosted thanks to **two propellers that lift the debris and draw them** inside the robot's cleaning zone.

These exclusive Zodiac innovations, combined with the robot's wide sweeping area, ensure that it will collect more debris with each pass.

► **Intent on satisfying consumers' needs, Zodiac has developed the MX8, a new suction cleaning robot that easily cleans all zones of the pool.**

TESTED & APPROVED!

over **85%**

of owners of vacuum robots are convinced by the "easy to use" argument.

Satisfaction survey 2007 with 150 owners of ZODIAC suction-powered cleaners

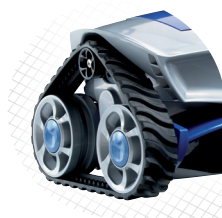

SUCTION CLEANING ROBOT

Coverage performance

Based on the new MX platform, the MX8 vacuum robot benefits from Zodiac's latest technological innovations.

X-DRIVE STEERING SYSTEM
cleans all zones.

NOTCHED TRACKS DRIVE SYSTEM
for perfect stability under all circumstances
Agile, it handles all obstacles: drain plug, lights, stairs...
