

Domestic Liners

Create your perfect pool

- **The most experienced Pool Liner manufacturer in the UK**

Plastica have been an established Liner manufacturer since 1976. No other UK Liner manufacturer has our wealth of experience. No matter what shape or size of pool, we know how to make perfect Pool Liners, time after time, after time.

- **Huge choice of Liner patterns**

From the ever popular Classic Marble and Mosaic Liners, to the contemporary Delphos and Ibiza Blue patterns, Plastica have the range to ensure the colours and patterns bring out the very best in your pool.

- **State of the art design and manufacture**

Plastica Liners are produced at the UK's largest swimming pool manufacturing facility. Our 10,000 sq.m. manufacturing plant is equipped with a state-of-the-art CAD system integrated with our computerised Plotter/Cutters.

- **The finest virgin vinyl material available**

Our high quality material is manufactured in Europe and USA. The quality of our product is unrivalled. With a 5 year guarantee, our Liners offer lasting beauty and durability.

Notes:

We individually tailor every liner to your dimensions, so please use our liner order form or our liner booklet “How to measure a Liner Pool” which will give us all the details and dimensions to manufacture your liner to close tolerances – to give you a perfect fit first time.

All Plastica patterns and materials are available in 0.75mm only except where shown. Wall materials can sometimes be used as tilebands. See chart for details.

Terms & Conditions:

Plastica domestic liners are designed for use in private domestic pools with normal bathing loads, run below 29°C (84°F) only.

Please use the chart shown for the mix and match combinations available.

Please note: Patterned materials cannot be matched along welds. Due to undersizing, liner walls can sometimes run onto floor area and vice-versa so we therefore ask you to ensure the end customer is aware of this.

All our pool liners are manufactured using the best European and American vinyls available. Exact standards are used in the fabrication techniques in our modern factory. These domestic liners have a 5 year limited guarantee against material and manufacturing defects when used for domestic applications in pools running at temperatures of up to 29° Centigrade (84° Fahrenheit) with chemical and dissolved solid levels within SPATA standards.

Every care is taken to ensure that patterns and colours shown are similar to the product supplied.

Plastica cannot accept responsibility for any pattern or colour variation that may occur from batch to batch. Please ask if you require a sample.

Do not install in air temperatures of less than 10° as material becomes stiff and difficult to fit evenly.
