

The Pool and Spa vacuum

; Cleaning your swimming pool or spa is a breeze with the Pool and Spa Vacuum. This All-In-One cleaning tool creates a suction that draws in water and debris from your swimming pool or spa as you pull the handle out.

* Push the handle in and the dirt is trapped inside the special filter basket as water flows out. No hoses or hook-ups are needed.

The tool comes with a slide on brush, dual nozzle, wide-end nozzle, and skimmer and wall mount.

1, assemble No 4 and No 3; push No 3 into No 4 turning to locate lock position

2, assemble No 4&3 into the main body (No 5) push and twist to locate and lock, to remove for cleaning twist and pull out.

3, attachments No 1-2-6 can be added as required by pushing them on to No 3 (as per drawing)
